## **Embedded content from other websites**

Articles on this site may include embedded content (e.g. videos, images, articles, etc.). Embedded content from other websites behaves in the exact same way as if the visitor has visited the other website.

These websites may collect data about you, use cookies, embed additional third-party tracking, and monitor your interaction with that embedded content, including tracking your interaction with the embedded content if you have an account and are logged in to that website.

## **Analytics**

To continually improve our site, we often collect information about how our Companions/visitors are using it. These usage statistics are only viewed in the aggregate—and are never tied to an individual.

We use this information for purposes such as improving the pages where our Companions/visitors are having difficulties, and ensuring that we have the appropriate infrastructure in place to service future needs.

The information collected may include your IP address, your browser type and your operating system, as well as data that is passively generated as you browse the site, such as the number and types of pages visited, and the length of time spent per page and on the site overall.

## **Who we share your data with**

We do not sell or share our users' private personal information. Jack Drebit is the sole proprietor of the trade name JCD Website Design and he is the Cryptic Rite Masons of Western Canada Royal and Select Masters WebMaster.

To ensure that you are the only person accessing your personal information, we restrict access to any Chat Forum we may establish by requiring that you enter your user name and password to login. Only you know your password. Committee members and CR do not have access to your password, and they will not ask you to reveal it. If someone does ask you to provide your password to them, we ask that you refuse to do so and contact us immediately.

## **How long we retain your data**

If you leave a comment, the comment and its metadata are retained indefinitely. This is so we can recognize and approve any follow-up comments automatically instead of holding them in a moderation queue.

For users that register on our website, we also store the personal information they provide in their user profile. All users can see, edit, or delete their personal information at any time (except they cannot change their username). Website administrators can also see and edit that information.

## **What rights you have over your data**

If you have a profile on this site, or have left comments, you can request to receive an exported file of the personal data we hold about you, including any data you have provided to us. You can also request that we erase any personal data we hold about you. This does not include any data we are obliged to keep for administrative, legal, or security purposes.

## **Where we send your data**
